

The 2018 Cargo Pro 2.0 Series:

The Next Generation of Versatility

The anatomy of innovation

Featuring the only Easy-Install and Easy-Adjust systems in the industry!

Cargo Pro Trailers is proud to introduce our new 2.0 Aluminum Deck offerings. This series reflects years of testing, refinement, and listening to thousands of consumers.

Our 2.0 Series offers the first true “plug and play” option catalog in the aluminum trailer industry. No more need to do a DIY refurb on your trailer to add spare tire carriers, rail kits, or tie-down points.

- Have a longer load? Simply slide the ramp bar forward, retighten and your load can hang over.
- Carrying different machines? Moving tie-down points is quick and easy.

The Cargo Pro 2.0 series brings the versatility and the styling that you requested.

Designed for the wilderness, the job site, or anywhere the road takes you.
